CAREER OBJECTIVE

My goal is to detect and analyze potential security risks, implement effective mitigation strategies and provide recommendations to improve the overall security posture of the organization. I am a quick learner and have the ability to adapt to new technologies quickly. I am also an excellent communicator and have the ability to clearly articulate complex technical issues to non-technical staff.

Diploma in Cyber Security <i>Appin Technology Lab</i>	Oct 2022 – Nov 2023 Ratlam, MP
B.Com with Computer Application <i>Shri Arihant College of Professional Education</i>	Aug 2021 – Jul 2024 Ratlam, MP
12th (Commerce+IP) <i>Sai Shree Academy</i>	Jul 2020 – Apr 2021 Ratlam, MP
10th <i>Sai Shree Academy</i>	Jul 2018 – Apr 2019 Ratlam, MP

PROFESSIONAL EXPERIENCE

VAPT Trainee <i>Cyber Smith Secure</i>	Feb 2025 – Oct 2025 Virar, India
Web Development Intern <i>CodSoft</i>	Aug 2024 – Sep 2024
Cybersecurity and Ethical Hacking Intern <i>TechnoHacks EduTech</i>	Jul 2024 – Aug 2024
SOC Analyst Intern <i>Cyber & Forensics Security Solutions</i>	Jun 2024 – Jul 2024
Web Development Intern <i>VeriTech Software IT Services</i>	May 2024 – Jun 2024
Web Development Intern <i>Encryptix</i>	May 2024 – Jun 2024
Security Operations Center Analyst Intern <i>Chatinaya Cyber Strix Technologies</i>	Nov 2023 – Jan 2024

TECHNICAL EXPERTISE

Web Application VAPT

- Well-versed with OWASP top 10.
- Follows the OWASP testing methodology and built custom test cases according to the business logic of the application

Network Security VAPT

- Perform a scan to identify all the open ports.
- Manually analyse the results of the port scanning and the automated scanning.

Web Developer

- Create or implement designs demanded by a client.
- Coordinate with a team of web developers to design scalable database applications for clients, conduct code changes in HTML, CSS and JavaScript.
- Provide support for the implementation of E-commerce websites, including wireframing, frontend development, back end development, and user interface design

Basics Of Networking

- Perform basic configurations for routers and switches, and implement IPv4 and IPv6 addressing Schemes.

PROJECTS

VAPT Projects

I Worked on many VAPT Projects in Cyber Smith Secure

- Conducted comprehensive vulnerability assessments on web applications for UpGrad, Unoai, and Vendolite, identifying security flaws aligned with OWASP Top 10 and industry best practices.
- Performed hands-on penetration testing using tools such as Burp Suite, Nmap, and custom payloads to uncover critical issues.
- Documented technical findings in detailed security assessment reports, including risk severity, impact analysis, reproduction steps, and remediation guidance.
- Contributed to vulnerability reporting and documentation for DBCorp and Atlas projects, ensuring high-quality deliverables for multiple ongoing assessments.

Pratham Portfolio

Created my personal Portfolio Website using HTML, CSS and JavaScript

Appin Technology Lab Website

Created a Training Institute Website

Jack Portfolio

Created a portfolio website

Coza Store E-commerce Website

Created a E-commerce Webiste in which user can buy clothes Online and Pay online

SKILLS

Operating Systems /Virtualization: Windows 11/10/8, VMWare

Linux: Debian

Database: MySQL

Information Gathering: Manual

Vulnerability Scanners: Nessus, Acunetix

Enumeration: Nmap

System Hacking: Metasploit, John the Ripper

Web Application Analysis: Burp Suite, Owasp-Zap

Web Development: HTML | CSS | JavaScript | PHP | MYSQL | BootStrap | WordPress

Programming Languages: C, C++

CERTIFICATES

Diploma in Cyber Security

I have done diploma in Cyber Security from Appin Technology Lab Ratlam

Cyber Threat Intelligence 101 (CTI)

I have passed the Certified Threat Intelligence 101 (CTI) from arcX

Certified AppSec Practioner (CAP)

I have passed the Certified AppSec Practioner (CAP) exam based on the practical Scenerio and web based Questions from The SecOps Group, UK

Certified Network Security Practioner (CNSP)

I have Passed the Certified Network Security Practioner (CNSP) exam based on the practical Scenerio and network pentesting questions from The SecOps Group, UK

KEY STRENGTH

- Technical Proficiency
- Collaborative Team Player
- Porblem Solving Skills
- Attention to Details
